

C2000

PORTABLE FILTRATION UNIT

CCU units were developed to handle the rigorous demands of micro-decontamination operations where reliable, high volume air filtration is essential to safety and productivity. Today there is a unit for virtually every size and type of air filtration job.

Specifications

C2000 Portable Filtration Unit

HEPA Efficiency	99.97%
Air Flow in C.F.M.	2000-1600-1200
Speed Adjustment	3-speed
Power Requirement	115/1/60
Amps	15
Dimensions	H: 35", W: 26", L: 33"
Housing	Cold Rolled & Painted or Stainless Steel
Pre-filter Size	(2) 25" x 25"
HEPA Size	24" x 24" x 12"
Weight	180 lbs.

Typical Uses for the C2000

- Construction Environments
- Pharmaceutical Industries
- Computer Centers
- Electronic Industries
- Lithography Industries
- Food Processing Industries
- Chemical Trades
- Film Processing Plants
- Schools and Universities
- Hospitals
- Laboratories
- Commercial Buildings
- Industrial Plants
- Shopping Centers
- High-Rise Apartments
- Safety Industries
- Smoking Break Areas
- Bingo/Meeting Halls
- Restaurants
- Bars
- Beauty Parlors

Outstanding Features

- Compact
- Portable
- No duct work required
- No installation required
- Easily adapted for permanent installation
- Low electrical consumption
- Virtually maintenance free
- Plugs in 110/120 outlet
- Variety of filter options available
