Xtract[®] MAX

Mini - Compact Canister

The XtractMAX Mini family of industrial grade canister vacuums offer rugged construction, easy maneuverability, powerful suction and our unique Eco Filter system — eliminating dust dispersion and ensuring constant filtration efficiency.

A three-stage motor means reliable service and incredible suction in these compact fine-powder vacuums.

XtractMAX Mini Family — 302, 504 and 304

Eco Filter System

The bag-free cartridge Cyclone Filter captures and separates even microfine dusts with 3.23 square feet of filter surface.

Tank Capacity - Gallons

Model 302	8
Model 304	9.8
Model 504	7.3

Adapts to Your Application

These nimble canister vacuums are light and small enough to go where the job is, even when floor space is tight.

A **power tool connection socket** offers incredible versatility for source capture of dusts from saws, sanders, grinders and a wide array of power tools. And a remote device automatically powers up the vacuum whenever the connected power tool is in use.

Power Tool Adaptors with Remote Activation
