Xtract[®] MAX

Portable Electric Vacuums

The NEW XtractMAX[®] self-cleaning portable vacuums are unlike any other on the market today. With 99% filtration efficiency, down to 2 microns, our **patent-pending** internal technology automatically and continuously cleans filters *without* shakers, blowers, compressors or magnets. Simply vacuum and empty – filters stay clear with **no downtime!**

Weighing in under 65 pounds, XtractMAX is lightweight and portable. Five caster dollies support up to 300 pounds, and nylon grip handles assist in dumping. Units operate on a standard 120-volt, 20 amp outlet.

The XtractMAX inside tank air dam directs media to the tank bottom, preventing its recycling through the filter.

**Optional HEPA final filter available
99.97% @ .3 microns**

Powerful, rugged, portable, efficient and low-maintenance, the XtractMAX will handle your toughest vacuum and dust collection needs.

XtractMAX utilizes 3 filters, each with 5.6 sq. ft. of media with 99% efficiency at 2 microns.

Two filters vacuum, while one filter is pulse jet cleaned,

Offering a complete line of hoses and attachments for any application

Model	CFM	Lift	Power	Weight	Height / Diam	Capacity Gallons	Supply
